10	There are many insights in the essays collected in <i>Observations on Modernity</i> , but they are embedded in a dense English translation of a dense German original that may make many of them to most readers. A. vapid B. inaccessible C. sagacious D. banal E. distressing F. opaque

11. Architects may be more extroverted and therefore the more design team, but they are not always the most essential. A. indispensable B. conscientious C. reliable D. visible E. valuable F. salient	members of a bridge
12. Although scientific progress leads to constant revision of ideas, or remained over the years is that there are a lot of inse 950,000 species have been identified. A. robust B. significant C. strong D. perplexing E. confounding F. obscure	
13. Anne Carson's book <i>Nox</i> is, very deliberately, literary an e-reader, which is designed to vanish in your palm as you read of A. an evanescent B. a cumbersome C. an immutable D. an unwieldy E. an ephemeral F. an flexible	
14. One of the peculiarities of humans is that we irrationally gravitate avoid risk, whatever the reason for this, it is hardly a soun complex, long-term problems. A. eccentricity B. predilection C. vacillation D. proclivity E. wavering F. cowardice	<u>-</u>
 15. In a field of egotists, Bloomfield is, often praising punctuating her correspondence with self-deprecating remarks. A. unassuming B. complimentary C. acerbic D. ingenuous E. cutting F. modest 	g her competitors and

_	The beauty of the scientific approach is that even when individual researchers do bias or partiality, others can correct them using a framework of evidence on which everyone broadly agrees.
]	A. overreact to B. deviate from C. succumb to D. recoil from
	E. yield to F. shrink from
1 2 (1 1	The life of a secret agent is dangerous enough, but the life of a double agent is infinitely more: a single slip can send an agent crashing to destruction. A. arduous B. precarious C. clandestine D. perilous E. covert F. exhilarating
i	Despite their cultural and social significance, rapid growth, and widespread appeal in China, video gamesunlike traditional mediahave received attention from nternational communication researches. A. undue B. scant C. excessive D. focused E. limited F. dwindling
S	Although Wynne claims to recognize that data are available to make definitive statement, she offers them nonetheless, arriving at some sweeping generalizations. A. concrete B. finite C. insufficient D. indirect E. conclusive F. meager
ŧ	In a book that inclines to, an epilogue arguing that ballet is dead arrives simply as one more overstatement. A. pessimism B. misinterpretation C. imprecision D. vagueness E. exaggeration F. hyperbole

21. When studying the ancient Greek astronomers, Copernicus realized that despite the intrinsic beauty of many of their arguments, the ancients often made claims that logic. A. refuted B. questioned C. influenced D. swayed E. defied F. disregarded
22. Coagulation factors are useful proteins whose simple names—many are known only by Roman numerals— their importance and the specificity of their roles in the thinning and clotting of blood. A. nullify B. obviate C. mitigate D. belie E. mask F. accentuate
23. The cat known to researchers as M-120beefy, audacious, and apparently smart enough to spot a free lunchis perhaps the world's least lynx: the scientists catch him several times a year. A. intelligent B. evasive C. fearless D. furtive E. elusive F. intrepid
24. In the northeastern United States, beaver populations had been critically reduce or even in large areas at the end of nineteenth century; as a result, several states instituted prohibitions on beaver trapping. A. diminished B. extirpated C. eliminated D. devalued E. weakened F. underrated
25. Readers have long considered <i>Lawd Today!</i> , Richard Wright's first written and last published novel,; the novel simply seems inconsistent with the image of what a Wright text should do or be. A. an artifact B. a prototype C. an anomaly D. a mainstay E. an aberration F a model

day at the office does no more than buy him a few weeks offrom rebels within his own party. A. controversy B. reproach C. respite D. relief E. blame F. deference
27. Taking to the mountains to escape the chaos occasioned by the collapse of the ruling dynasty, artists looked to nature for and a serenity not evident in human society. A. an order B. a stability C. a fragility D. a decadence E. an interaction F. a degeneracy
28. Even before she went to art school, Veronica found the standard design categories: she didn't understand why designing buildings and designing tables should require different sensibilities. A. provocative B. limiting C. stimulating D. confusing E. confining F. exhilarating
29. The nation's robust economic performance could be by the persistent flaws in its economic institutions and structure that are the result of half-finished and misguided government policies. A. neutralized B. concealed C. undermined D. impaired E. obscured F. outstripped
30. It is not unusual for American education leaders to hold up another nation as a model for school reform: in the mid-nineteenth century, such figures the professionalism and structure of the Prussian school system. A. envied B. imitated C. hailed D. augmented E. acclaimed F. enhanced

through the solar system and depends on the gravitational pull of three heavenly bodies. A. predetermined B. circuitous C. indirect D. truncated E. shortened F. sequential
32. Ancient cave painters explored every surface, and although they bypassed certain walls that to us seem just as suitable for decoration as ones they chose, the placement of the arapparently wasn't A. inconsequential B. capricious C. strenuous D. undisclosed E. arduous F. impulsive
33. The stories of silent drama may often have been, yet, within those broad outlines the true artists among silent-film actors could express shadings that had no immediate analogue in language. A. implausible B. incredible C. conventional D. elemental E. rudimentary F. confusing
34. Any antimatter in our part of the universe is necessarily because of the overwhelming preponderance of ordinary matter, by which antimatter is quickly annihilated. A. short-lived B. nebulous C. scarce D. concrete E. substantial F. ephemeral
35. Although people often describe the correct trajectory for a thrown or moving object, thei efforts to explain that trajectory in terms of physics can reveal understanding of the forces acting on the object. A. a naïve B. a subtle C. a fallacious D. an unsophisticated E. a nuanced F. a fresh

36. His own writing style was: colorful and tart in its choice of language, willing to run risks in its allusions, metaphors, and verbal juxtapositions, prone to irreverent conclusions designed to surprise or startle. A. effusive B. audacious C. lyrical D. striking E. ornate F. emotional
37. The book aims to illuminate how science has changed the meaning of nothingness from philosophical concept to something we can almost put under a microscope. A. a tangible B. a palpable C. a nebulous D. a nettlesome E. an incontrovertible F. a vague
38. For certain economists, "pure" economic theory, that is, economic theory a specific social structure, is impossible, much like a concept of anatomy that investigates no specific species. A. attuned to B. abstracted from C. derived from D. divorced from E. sensitive to F. analyzed in
39. In their quest for kinder cutting, physicians increasingly rely on endoscopic surgery, replacing large scalpels and clamps with cameras andtools that snake into the body through tiny holes. A. flexibility B. rigidity C. magnitude D. suppleness E. enormity F. precision
40. For decades, Pluto seemed to be the mysteriously planet: it was first thought to be about as large as Earth, but, subsequently, measurements had it smaller and smaller. A. morphing B. appearing C. dwindling D. orbiting E. contracting F. emerging

41. Every illness is a story, and when Annie's began, it was characterized by the kinds of details that mean nothing until seen in hindsight. A. salient B. unexceptional C. conspicuous D. suggestive E. abundant F. nondescript
42. Peoples' decisions about childbearing depend on innumerable personal considerations and societal factors, yet even knowing this, demographers are often: their projections of birth rates frequently turn out to be embarrassingly at odds with reality. A. sanguine B. flummoxed C. inconsistent D. overconfident E. heartened F. confounded
43. It is and rather, surprising, for someone with a considerable background in philosophy, that Taylor fails to distinguish adequately between forms of communication and forms of knowledge. A. reprehensible B. inexplicable C. deplorable D. dangerous E. typical F. characteristic
44. He was one of the most powerful chess players ever and one of the most: at the height of his fame he all but dropped out of chess, entering into a self-imposed exile. A. perplexing B. creative C. troubled D. infuriating E. enigmatic F. imaginative
45. Consuming 25 to 35 percent of their body weight each day, sea otters are not only but highly specialized eaters, organizing themselves into groups that zero in on specific kinds of prey. A. prodigious B. undiscriminating C. fastidious D. picky E. voracious F. omnivorous

46. Although the company still loses the occasional lawsuit, the litigation threat that once
seemed so has become quite manageable.
A. burdensome
B. pedestrian
C. sporadic
D. mundane
E. promising
F. onerous
47. Although most scientists hold that quantum theory and the theory of general relativity
ought to be intimately connected, the theories have remained stubbornly
A. consistent
B. unlinked
C. self-contradictory
D. estranged
E. arbitrary
F. congruent
48. Despite its best efforts to stimulate sales, the bookselling business remains far from, for its has high fixed costs in wages and rent, and falling prices make these ever harder to A. effective B. healthy C. innovative D. robust
E. stingy F. parsimonious
49. Experiments have shown that it is shockingly easy to elicit a sense of among a group of strangers: just tell them they'll be working together as a team. A. dominance B. hierarchy C. obedience D. solidarity E. camaraderie F. optimism
50. It is hardly for today's film to try to blur the boundaries between the moral and the immoral. Hollywood has been doing that since at least the 1960s. A. entertaining B. original C. novel D. pertinent E. relevant F. insightful

51. In Schaller's contradictory introduction to the book, she alternately applauds and humankind's role in animal conservation.
A. authorizes
B. endorses
C. denounces
D. discloses
E. relates
F. lambastes
52. The current of repackaged music under Miles Davis' name might prompt any reasonable person to conclude that the recording vault has been plundered bare. A. glut B. revival C. hodgepodge D. surfeit E. modicum F. dearth
 53. Ascorbate readily oxidizes in aerated aqueous solutions, and the PH of such solutions, in part, the rate of oxidation, since the higher the PH, the greater the rate of oxidation. A. determines B. accelerates C. consolidates D. governs E. compounds
F. stabilizes
54. Individuals interested in longevity have sought to fine-tune their bodies with all kinds of diets: only raw foods; only plants; only the flesh, fruit, and nuts that prehistoric humans would have hunted and foraged. A. eccentric B. meager C. salutary D. proscriptive E. trendy F. exacting
55. The recent exhibition on Dadaism is nothing if not, for the visual arts are currently awash in Dadaism gestures and gambits of one variety or another. A. sensational B. timely C. daunting D. ill-advised E. opportune
F. misguided

56. Despite the general of Roman archaeological studies toward the major cities and their monuments, archaeology has contributed much to a better understanding of rural developments in Roman territory. A. openness B. indifference C. hostility D. animus E. bias F. orientation
57. Our mass media are much more fascinated by bad ideas or the failure of good ones than by successes: we drown in bad news—tales of how things went wrong—but we have only the most discussion on how they might go right. A. incisive B. tantalizing C. trenchant D. cursory E. illusory F. perfunctory
58. The occasional minor errors, while annoying, do not the basic scholarship or the valuable contribution of this book. A. support B. uphold C. expose D. explain E. vitiate F. impair
 59. In American art the line between the good and the goods is not a hard-and-fast boundary, for in a commercial society the membrane that separates spirit and store is always A. porous B. clogged C. permeable D. unwavering E. steady F. imaginary
60. Recent research runs counter to the long-cherished notion that a small drop in body temperature during and after surgery is either or actually protects the patient by slowing metabolism and reducing the body's demand for blood and oxygen. A. beneficial B. immaterial C. inconsequential D. preventive E. prophylactic F. redundant

61. There is a revelation on almost every page of this book, and the author's prose is in the best possible way: blunt, sweet, off-kilter, and often quite funny. A. eloquent B. austere C. somber D. awkward E. solemn F. ungainly
62. A few decades ago the idea of animal morality would have been met with; however, recent research suggests that animals not only act altruistically but also have the capacity for empathy, forgiveness, trust, and reciprocity. A. derision B. resentment C. dismissal D. conviction E. ridicule F. certainty
63. A priori mathematics, according to Galileo, does not the need for observation, but mathematics does allow us to deduce unobservable properties and thus to penetrate further into the structure of nature than observation does. A. address B. acknowledge C. obviate D. diminish E. displace F. Appreciate
64. The central idea of the worldview known as "consilience" is that all tangible phenomena are based on material processes that are ultimately reducible, however long and the sequences, to the laws of physics. A. facile B. ethereal C. tortuous D. superficial E. convoluted F. protracted
65. Because archaeology explores the most profound changes in human history by means of a grossly incomplete record, it has invited the sort of bold, imaginative interpretation in which speculation too easily becomes evidence. A. replaced by B. constrained by C. untethered from D. divorced from E. substituted for F. constricted by

66. Although evolutionary psychologists do not seem quite as imperialist in their intellectual ambitions as their sociobiologist forebears of the 1970s, they tend, in some critics' view, to be no less in their claims. A. abashed B. arrogant C. impetuous D. hubristic E. narcissistic F. diffident
67. During the eighteenth century, improvements in their material circumstances did not necessarily mean expanded independence for women elite families and, arguably, the social conventions of gentility more of their time and energy. A. provided B. justified C. demanded D. granted E. exacted F. rationalized
68. There are many ways in which rat brains and human brains are Indeed, rat brains are often used as generalized models for all mammalian brains, including our own. A. identical B. analogous C. mysterious D. comparable E. adaptable F. inexplicable
69. The book reaffirms the idea that Africans on the continent have not stopped or responding to their own creations; in fact, African creative agents have ushered in their own modern forms rooted in traditional ideas. A. exposing B. detecting C. absorbing D. noticing E. generating F. originating
70. People enjoy listening to the governor's inspiring speech, and his eloquence lulls his adversaries into underestimating his, the tempered steel beneath the sleek suits. A. tenacity B. resolve C. resourcefulness D. kindness E. compassion F. frankness

71. The author takes issue with the ideological blinders that have distorted much migration research, especially modernization theorists and others for their untested assumptions of an immobile preindustrial past. A. undermining B. citing C. castigating D. chastising E. endorsing F. commending
72. Flash floods are common in desert regions and were widespread before the evolution of tress and woodland soils, in contrast, flash floods are in woodlands, where floodwaters, impeded by trees, form ponds. A. overshadowed B. redirected C. obscured D. precluded E. mitigated F. abated
73. Every serious attempt at a historical portrait of the past will subtly absorb the milieu and temperament of its living author, however he or she sets out to be. A. entertaining B. comprehensive C. objective D. engaging E. rigorous F. impartial
74. As a proponent of women's traditional roles, Sarah Hale was adamantly against women's suffrage as thrusting women into an improper sphere; yet she female textile strikers when they publicly protested their mistreatment at miles. A. opposed B. supported C. criticized D. championed E. challenged F. welcomed
75. Many people remember a time when cutting-edge architects, who are these days treated like celebrities, had relationship with the public: for much of the 1960s, big new buildings in cities were often cause for hostility, not celebration. A. an antagonistic B. an inimical C. a symbiotic D. an indifferent E. an apathetic F. an autocratic

76. Ursula Le Guin claims that looking at schoolbooks from around 1900 can be, given that the level of literacy and general cultural knowledge expected of a mere ten-year-old was, she notes, "rather awesome". A. reassuring B. stimulating C. dreary D. tedious E. scary F. intimidating
77. Computerized facial-recognition systems can be by any number of factors, from the dirt caked on a camera lens to a hat pulled low over a subject's face. A. neutralized B. calibrated C. augmented D. ameliorated E. stymied F. confounded
78. Contrary to certain recent analyses that paint a dire portrait of soil loss from farmland, a new study of surveying data reaching back to the 1930s shows that erosion rates have been steadily A. intensifying B. waning C. accelerating D. worsening E. declining F. deteriorating
79. When it comes to arriving at brilliant ideas, filtering out distractions might well be: if a person's mind is wandering, that person tends to outperform peers in a range of tasks in which flashes of insight are important A. indispensable B. irrelevant C. overrated D. imperative E. deleterious F. counterproductive
80. There is ample evidence that men and women think, express themselves, and even experience emotions differently, but in the area of sensory perception, psychologists are hard-pressed to identify major A. difficulties B. innovations C. discrepancies D. challenges E. incongruities F. trends

81. What differentiates this book from more traditional works on grammar is that it reserves its not for students of writing, bur for teachers who harbor unduly restrictive views. A. mockery B. skepticism C. scolding D. approbation E. admonishment F. commendation
82. Despite leaving their old jobs behind, workers were eager to move because there were to be no layoffs under the union contract at the new location. A. jubilation over B. indifference to C. misgivings about D. outrage over E. trepidation over F. enthusiasm for
83. Berwick, middle-aged, soft-spoken, and, with a keen sense of how to use this apparent ordinariness to his advantage, began with a gripping story about how a firefighter saved himself during a forest fire by using a completely improbable tactic. A. imperturbable B. implacable C. unimaginative D. unprepossessing E. unremarkable F. unruffled
84. Caricature can be revealing as well as amusing, and Ager's novel is both. Ager's delineation of class, ethnic, and generational struggle is exaggerated for comical effect, but itnonetheless. A. resonates B. entertains C. diverts D. confuses E. rings true F. falls short
85. In the nineteenth century, the circus, for all its glitz and even its glamour, was entertainment with an old soul, the fast-forward pace of change in modern life. A. a forerunner of B. an antidote to C. a respite from D. a break from E. a precursor to F. a rebuke to

86. Her attempts to wrest fiction free from traditional constraints like plot and character were never entirely popular with readers; nonetheless, her fiction has had influence on critical theory, novel, cinema, and even psychology. A. a studied B. a negligible C. a decisive D. an unmistakable E. an insignificant F. a restorative
87. Considering that space travel was science fiction only decades ago, we should be extremely reluctant to proclaim an idea forever technologically infeasible unless that idea some hard physical constraint. A. violates B. contravenes C. overcomes D. transcends E. utilizes F. introduces
88. The proposition that foraging Native Americans studied the skies is: anthropological evidence demonstrates, for example, that the Chumash Indians counted the lunar cycles and established the times of the solstices. A. unquestionable B. unremarkable C. undeniable D. unprecedented E. unexceptional F. unparalleled
89. Lustig's critics argue that what makes him a compelling public speaker is his practice of citing evidence that is merely suggestive in support of a claim and insisting that this evidence is A. invaluable B. irrelevant C. indubitable D. immaterial E. insignificant F. incontrovertible

90. Like ants' propensity to congregate on one food pile and neglect another, the human tendency to make choices that the observed behavior of others is a self-reinforcing
process.
A. imitate
B. confirm
C. avoid
D. emulate
E. inhibit
F. constrain
91. It's true that occasional entries might have been edited without damaging the diary's overall impact, but the very completeness of Clara's eloquent reflections conveys a strong sense of the density of a young woman's experiences. A. verbose
B. redundant
C. long-winded
D. curt
E. mundane
F. laconic
92. While merchants and bankers in thirteenth-century Europe quickly embraced the Hindu-Arabic numeral system, the governing authorities were lessit. A. persuaded by B. guarded about C. captivated by D. open-minded about E. inhibited about F. enamored of
93. Not only is the advent of bookless or largely bookless libraries too large and powerful a change to be, it also offers too many real advantages for it to be considered a tragedy. A. understood B. averted C. foreseen D. forestalled E. endured F. anticipated
94. Another challenge to biologists and land-use planners alike is that while human-induced changes to the landscape are sometimes, they can nevertheless drastically alter the habitat for some plants and animals. A. indisputable B. inappropriate C. unacceptable D. unfathomable E. imperceptible F. indiscernible

95. There is quality to Beryl Bainbridge's best novels, what Hilary Martel calls "ar air of mystery, as if something has been inked in and then sponged away, leaving a faint trace for the reader to pick up." A. an elegiac B. a cryptic C. a deceptive D. a plaintive E. an elusive F. a mesmerizing
96. It turns out that the seeming spontaneity of his letter actually involved a good deal of the writer carefully revised them before mailing them, and he worked hard to establish the right tone A. deliberation B. whimsicality C. inventiveness D. effort E. capriciousness F. consideration
97. Since Venus and Earth are so similar in their mass and density, Mueller suggested that the two planets have similar compositions and, therefore there must be surface features on Venus that have terrestrial A. causes B. consequences C. counterparts D. parallels E. properties F. outcomes
98. Although field studies have linked inbreeding to declines among song sparrow populations, some researchers argue that, in nature, inbreeding proves as a factor when compared with crushing blows from weather changes. A. hazardous B. momentous C. trivial D. significant E. precarious F. inconsequential
99. In Japanese aesthetics, especially but not only in Noh, beauty contains the idea of beauty must have an air of evanescence, the intimation of its own demise. A. transience B. symmetry C. decay D. simplicity E. balance F. deterioration

100. Although one can adduce myriad of examples of ecosystem disruption by nonindigenous species, nevertheless most introduced species that survive in fact appear to have quite effects on the ecosystem they have invaded. A. minimal B. trifling C. marked D. conspicuous E. intriguing F. deleterious
101. In mathematics, judgments about the validity of proofs are mediated by peer-reviewed journals, to ensure, reviewers are carefully chosen by journal editors, and the identities of scholars whose papers are under consideration are kept secret. A. timelessness B. originality C. fairness D. comprehensiveness E. objectivity F. novelty
102. Jackie Wullschlager's biography of Hans Christian Andersen the insipid sweetness with which Andersen coated his life and reveals a vulnerable gingerbread man with a bitter almond where his heart should be. A. conjures up B. imagines C. strips away D. overlooks E. removes F. ignores
103. Scientists reported last month on a sign of relative solar: the solar wind, a rush of charged particles continually spewed from the Sun at a million miles an hour, had diminished to its lowest level in 50 years. A. quiescence B. turbulence C. isolation D. calm E. remoteness F. instability
104. The laboratory maze has grown ever less since it was first invented instead of hoping to lose a rodent in a labyrinth, today's scientists design mazes to elicit a few simple, easily measured behaviors. A. intricate B. extensive C. effective D. convoluted E. useful F. prevalent

105. The researcher noted that microbes, although, make up far more of the living protoplasm on Earth than all humans, animals and plants combined. A. invisible B. omnipresent C. diminutive D. ubiquitous E. minuscule F. ethereal
106. In matters of taste, the art patron and collector Peggy Guggenheim was: she was for the strangest, the most surprising, the most satisfying, the best, the unique. A. neophyte B. novice C. realist D. extremist E. pragmatist F. zealot
107.Advocates for workers' rights have adopted a new strategy, one that will require considerable ingenuity but that if successful, could a movement aimed at making labor rights an unassailable feature of American democracy. A. frustrate B. galvanize C. presume D. affect E. animate F. thwart
108. It is hardly the committee calls for: rudimentary competence would be an improvement on the current chaos. A. accountability B. disarray C. unruliness D. faultlessness E. loyalty F. perfection
109. There are great in countries' greenhouse gas emissions, especially in per capita terms: while the United States and China are similar in aggregate emissions, United States per capita emissions are a huge multiple of China's. A. distortions B. disparities C. fluctuations D. advances E. variances F. vacillations

110. The concept of the Hellenistic period in ancient history has proved useful but also, with scholars disagreeing on the dates when the period began and ended. A. slippery B. elusive C. fruitless D. deceptive E. futile F. compelling
111. In Ramachandran's opinion, it is perfectly acceptable to propose bold speculations about the brain, even if these speculations seem; as Ramachandran frequently remarks, science thrives on risky conjecture. A. unfounded B. premature C. controversial D. verifiable E. testable F. baseless
112. In order to cultivate new repertoire, the music industry is providing a hearing for previously composers. A. idle B. thwarted C. celebrated D. renowned E. anonymous F. obscure
113. Although many skeptics of the scientific theory critiques that have long since been disproved, some of the doubters arguably bring up valid points. A. overlook B. revise C. recycle D. utilize E. neglect F. rehash
114. The author engages this issue from diverse perspectives, supports his arguments with many examples, and manages to avoid antagonizing others in dealing with a very subject. A. contentious B. pedestrian C. controversial D. perplexing E. mundane F. intriguing

115. To call Kermode the finest English critic of his generation be a compliment, since not many of its population are professionally engaged in literary criticism. A. sincere B. backhanded C. paltry D. heartfelt E. meager F. plausible
116. The union states its position polemically; its leaders say they are fighting to save good jobs while corporations replace full-time workers with part-time ones in order to cut down on both wages and benefits. A. precarious B. enterprising C. rapacious D. troubled E. influential F. avaricious
117. Even if the story now seems a surprisingly innocuous overture to the author's later, more fully developed narrations, it some of the key traits of those bleaker tales. A. avoids B. belies C. undercuts D. anticipates E. possesses F. prefigures
118. In the absence of a surface gradient, the new laws of refraction and reflection are the conventional law, so they represent more of an extension than a complete revolution. A. inferable from B. entailed by C. antithetical to D. coincident with E. antecedent to F. oppositional to
119. While recognizing that recent reports of cyber warfare, phone-hacking scandals, and identity thefts have tended to accent the destructive connotation of the word, Sue Halpern maintains that "hacking" is such term that its meaning nearly always derives from its context. A. a generic B. an inclusive C. a positive D. a subjective E. an affirmative F. a technical

120. Miller reminded his clients that labor relationship are inherently: the interests of business owners are diametrically opposed to those of employees. A. adversarial B. exploitative C. mercenary D. antagonistic E. variable F. changeable
121. Even the cleverest use of time management techniques is powerless to the sum of minutes in a person's life (over 52 million, optimistically assuming a life expectancy of 100 years), so people squeeze as much as they could into each one of them. A. justify B. quantify C. augment D. enrich E. measure F. extend
122. Even though women in the United States would not gain the rights to vote until 1920, throughout the nineteenth century many feminist goals were gradually, especially the rights of married women to control their own property. A. realized B. abandoned C. eroded D. modified E. revised F. achieved
123. Films that critics have slumbered through rarely generate industry excitement, even though the critics' reception may be less the fault of the movie than of its unfortunate time slot near a fatiguing film festival's conclusion. A. somnolent B. impartial C. lethargic D. laconic E. befuddled F. evenhanded
124. Harper Lee's narration in <i>To Kill a Mockingbird</i> is, mixing an adult's and a child's perspective according to no logic other than the immediate exigencies of the plot. A. a paradigm B. a hodgepodge C. a model D. an innovation E. a patchwork F. an embarrassment

123. Oneis that so far, web services have turned out to be much harder to deliver
than their champions had hoped.
A. hope
B. snag
C. prospect
D. hitch
E. upshot
F. reason
